

PEPTONA

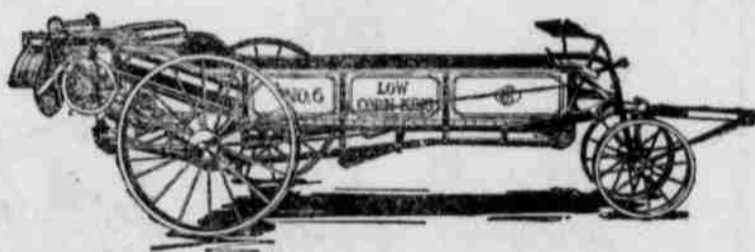

Will Help You

It puts the "PEP" into run down systems. It contains organic Iron, Manganese and Cod Liver Oil Extract, medicinal agents extensively used as a tonic and strength builder. Valuable for enriching the blood, of aiding assimilation of food, and for building the health generally.

If you have trouble recovering normal health after grippe, cold, bronchitis or influenza, if your blood is not up to standard, if your food assimilation is faulty, if you are tired or run down, then you need PEPTONA to help you. It is our best tonic; it is pleasant to take and easily tolerated by even the most sensitive stomach. We will refund your money if it does not do you good.

Low Corn King

Wide Spread From a Narrow Box

THE Low Corn King is the real spreader success of the year. At the San Francisco Exposition, the Low Corn King won a Grand Prize, the highest possible award.

You want a spreader that is narrow; not clumsy, wide, and hard to handle. You want it to pass through tight places when necessary, to go in barn doorways for easy loading, narrow for easy handling in your fields. Still, you want a real wide-spreading spreader, that will cover a double strip evenly, so as to cut in half your unloading time and traveling distance.

Here is the answer: The Low Corn King has a box only 45 inches wide, yet it spreads the manure in a finely pulverized strip 8 feet wide or better. Come in and see for yourself. You cannot be disappointed.

Lalley Light and Power

"The Economy"

Lalley Light not only saves you time and labor and money. It is an economy itself. An economy because it saves more than it costs.

For instance, George Reudi writes from Bloomfield, Nebraska: "I think they ought to have called the Lalley Light the Economy, as it has not cost us 3 cents a day yet, with washing and ironing."

Think of that. You can't buy enough kerosene to keep your oil lamps going, for 3 cents a day.

Yet for 3 cents a day, and less, George Reudi enjoys the bright, safe Lalley electric light.

In addition, he has all the electric power he can use, and his wife washes and irons with it.

Here is another case: John Boettner, Saline, Mich., says his Lalley takes about 4 1/2 gallons of gasoline per month.

That means about 25 cents a week.

On that he lights his eleven-room house, his barn, smoke-house, hog-pen and hen-coop.

These are only two instances. The story would be repeated and retold to you by every Lalley owner if you could talk to them all.

You actually owe it to yourself and your family to have a Lalley plant on the place.

"Cash in advance" will soon be the slogan of all country papers as well as the big dailies. The old system of letting the subscriber pay when and how he pleased has cost the editor thousands of dollars and with the price of paper, ink, type and everything else doubled, trebled and quadrupled, many papers have been forced to sell.

LOCAL PAPER POPULAR

The average man can live in a big city all his life and never see his name in the paper, but the farmer and the average man and woman in any small town will see their names in their local country newspaper at least ten times a year, and always connected with some worthy cause, some faithful service, something that brings joy all through life. The country newspaper is the paper that spreads happiness and content.

TWO CENT COPPER MAY BE REISSUED

The government has been urged to reissue the two cent coin withdrawn from circulation in 1874. It is suggested that the new coin bear on the obverse side a baserelief portrait of the late President Roosevelt.

The new coin, it is pointed out, would be useful in the payments for newspapers, street car fares and war taxes on small articles.

Card of Thanks

We wish to thank the neighbors and friends for kindness and help extended to us during the sickness and after the death of our two daughters. Also to those who furnished the beautiful flowers, and to the choir for music furnished at the memorial services.

AGE NO BAR

Everybody in Yale is Eligible.

Old people stooped with suffering.

Middle age, courageously fighting.

Youth protesting impatiently. Children, unable to explain.

All in misery from their kidneys.

Perhaps a little backache first. Urinary disorders, dropsy may quickly follow.

Doan's Kidney Pills are for weak kidneys.

Are endorsed by thousands. Here's Yale testimony.

Mrs. Lewis Smith, Arthur St., says: "Some time ago my little seven year old girl suffered from weak, uncontrollable kidney action. She got so she was tired all the time and lost all interest in her work and play. I decided that her kidneys were working improperly and bought some Doan's Kidney Pills, as the doctor's medicine didn't seem to help her. I gave my daughter about half a box and must say Doan's brought her great benefit. Her general health improved and she lost that languid feeling."

After the Moults—EGGS

REMEMBER, going through the moult is like going through a long spell of sickness. To force out the old quills and grow new feathers saps a hen's vitality.

If you expect your hens to be fall producers and winter layers, then feed them Poultry Pan-a-ce-a during and after the moult.

Dr. Hess Poultry Pan-a-ce-a

will start your pullets and moulted hens to laying

It contains Tonics that put your moulted hens in fine condition—Tonics that tone up the dormant egg organs—Iron that gives a moulted, run-down hen rich, red blood and a red comb. It contains internal antiseptics that destroy disease germs that may be lurking in the system. No disease where Pan-a-ce-a is fed. It pays to feed Pan-a-ce-a regularly.

It brings back the singing—it brings back the scratching—it brings back the cackle. That's when you get eggs; and it's eggs you want—fall eggs, winter eggs—when eggs are eggs.
